RE: Coronavirus Memo #44
Three Month Waiver of Tuberculin Test Requirement

The TB requirement for those new employees who have had a COVID-19 vaccine within one month prior to employment may be waived for three months. Verification of such COVID-19 vaccine shall be maintained on site at the child care center or group child care home and such employee shall meet the TB requirement within three months of when employment began. This waiver will cease when the declared state of emergency ends.

Thank you for your continued efforts to protect the health and safety of Connecticut's children.
